UNDREDS of people inspect this big building operation every week. Many of them looking for the one best home value they can buy-many others inspect the properties with the view of becoming familiar with the wonderful development that is going on in this beautiful and now well known home section.

We offer to both an equally courteous service in giving any information that is desired.

Our object being not only to effect sales, but to point out the advisability of home ownership and to fully explain the conditions under which one may acquire one of these homes on terms that necessitate no more work or energy, or, in fact, no more obligation, than rent paying.

We offer as substantial proof that good values are offered here the fact that within the past year we have sold in this tract over one and a half million dollars' worth of home property. Come talk with us, or with our clients, who represent our best references—the families who have already purchased from us—in any event, come see the development.

Six, seven, eight and nine room homes now in the course of erection.
